Casper is a unique technology-driven vision system from AG Innovation which enables a user to instantly make real-time, 3D measurements of their eye movements and skin surface characteristics to understand their reading performance. Casper Description: Computer world has become technologically advanced and everyone wants to do better, to achieve something better for themselves. But before that, we have to be aware of what we want. Humility is a skill to have, and it's really necessary for anyone to become a better person and achieve success. How to get it? Well, if you ask anyone, they'll say look within yourself. But the point is, how deep of a learner is you? How many skills do you have to develop? If you look at the person next to you, he's probably more humble and has more ambition than you. Why? Because he has to do things that you don't have to. How many times you have failed? But you must be wondering how come you are so successful and he is not. It's simple. You are more humble and have better attitude. So now, you can be successful because you are already humble. You shouldn't be ambitious to be successful, because you've been successful in the past. If you have ambition, you'll only become more successful in the future, and if you become more humble, you'll be more successful every day. Here's a short quiz for you. Who are you? Are you ambitious or humble? The answer is obvious. If you want to be more humble and successful, then be more humble and less ambitious. Humble people are always the most successful people. So, be humble and start achieving, right now.
