Windows 8 latest K.J\_120929 Activator by Microsoft. Version: 3.0. Finally today I got my hands on windows 8.1 and I've decided to compare the two operating systems. So now I'm stuck with a grey background and nothing else except the menu bar on the top. I made a backup of the file system before I did anything, no way I want to risk losing my settings and data. Using an iso of kj activator windows 8 and just re-partitioning the same disk twice haven't did anything. It's like a disease for musicians. Recently Wack Pack started a new blog called Kango and you've got to admit that they've got a pretty catchy name. It's going to be a pretty obvious joke blog, but I'm also convinced that people will write about pretty much anything that has to do with music. The first post (thus far) is titled "This is the song that make me think about going home". It's a little joke, the most offensive thing he could write is that pop song from 6 years ago. Although the song's getting some plays on Myspace. It'
