
Microsoft Office 2007 Free Download Full Version For Windows 7 Cnet ##TOP##

January 29, 2007 - We reviewed Microsoft Office Standard 2007, which costs a hefty \$399 or \$239 upgrade. This package includes Word, PowerPoint, Excel and .net framework. The \$200 upgrade gives Microsoft Office 2007 a significant advantage over Office 2003. But this upgrade isn't entirely relevant for users who are running previous versions of these programs because they can't get it for free. It is possible that in the future a new version of Microsoft Office or Microsoft Office 2007 will be released that will include all of the components listed above for full functionality.
