Create keyboard shortcuts easily Keymacro can be described as a simple and easy-to-use tool to create keyboard shortcuts. All that a user needs to do is to click the "Add new shortcut" button and choose a keyboard shortcut that they wish to assign. Then they can create custom shortcuts from predefined sets. A Keyboard Shortcut is basically a combination of letters and the CTRL, ALT or WIN key. Shortcuts can be used for anything; e.g. an assignment, launching a program, starting up Windows, saving a file or closing one. All shortcuts use the following format: CTRL+LettersOfKey+Space+Application (or Windows) where, for example, CTRL could be replaced with ALT or CTRL+SPACE. The Keyboard Shortcuts tool will allow you to create different key combinations that can then be assigned to any app or Windows. You can use this tool for just about anything. Customizable keyboard shortcuts One of the best things about this program is that it allows users to customize and create their own shortcuts. There is a lot of options available to help users create the shortcuts they wish. Take a look at all the options at your fingertips with Keymacro. Product Description: Customer Reviews: Windows 7 Kootool Rapid CHM Maker is not a proper solution for you. Its interface is old and poor and it doesn't have all the features it should have. Some settings options are missing and some settings are not good at all. Indeed, your expectations are a bit high because of the fact that you've got an older version of the software. The interface is simple, but that's not enough. It's no longer a complex software and it doesn't include all the functionalities that you expect from it. Perhaps, you might find an application more worthy of your time. Why You Need This Software The user-friendly interface provides all the necessary options for a routine conversion. Support of various document types including DOCX. Support of common destination types: Flat File (FLEX), zipped folder, FTP, mail, and network. Modern CHM package includes advanced features such as visual diff and version control. Batch conversion is also supported. This CHM manager supports the import of various document formats including DOC, DOCX, DOCM, DOCX, DOCM, XLS, XLSX, XLSM, PPT, PPTX, RTF, PDF, and HTML. 90 So.2d 436 (1956) Clarence LEE, Plaintiff-Appellant, v. Dr. M. F. KENNEDY, Defendant-Appellee. No. 5142. Court of Appeal of Louisiana, First Circuit. May 10, 1956. M. N. Grosclade, Lake Charles, for appellant. M. H. Gaudin, Houma, and Duree & Theriot, Lake Charles, for appellee. LOTTINGER, Judge. Plaintiff Clarence Lee sued Dr. M. F. Kennedy for damages allegedly suffered as a result of the alleged malpractice of Dr. Kennedy in administering an injection of anesthetic into plaintiff's left arm which caused plaintiff to have a spinal injury. At the time the suit was filed plaintiff had resided in Cameron Parish, Louisiana, for some 20 years and at that time was employed by the Shell Oil Company. Plaintiff was married at the time of the accident and at that time resided at Houston, Texas. Plaintiff's wife was named as
