VeryPDF Raster to Vector Converter is an application created for converting images into many different file formats. Almost everything can be altered, from appearance, size and color to output format and location after conversion. Convert images by changing appearance, size and resolution When it comes to converting an image file using VeryPDF Raster to Vector Converter, there are many

---

preferences to choose from. Starting with the size of the converted file (A4, A3, A5, B5, letter, Legal, Tabloid, Statement, Executive, Folio, Quarto and 10x14), the image can also be rotated from 0 to 360 degrees, change its resolution (in dpi), and also check or uncheck other existing options, such as gathering related paths, convert whole image as one path and trace the centerline of a character and not its outline. The size of the image ready to be converted is quite

---

important. Width, height and margins can be set in centimeters, inches or points (from 0 to 10000). Also, the margin detail can be set for each side of the picture (top, bottom, left and right). Change color, threshold value and output format Color changes can be set as Linecolor and Fillcolor. For both of them, every existing color and shade can be set, along with hue, saturation and value. Threshold value can be set as well, from 0 to 255 (default is 240). Beside these options,

---

white shapes can be made opaque, colors for input images can be inverted and whitespace around them can be removed. After all the changes have been made, all that remains to be set is the output format. It can be set in: PDF, EPS, PS, SVG, DXF, PGM or EMF.

When finished, the opportunity of opening the output folder can be set as well, reducing search time.

**Our thoughts** In conclusion, VeryPDF Raster to Vector Converter is an easy to use program, containing many options

---

from every point of view. Running well during our tests, showing file size and specific location of the image selected, as well as output location, makes it time and user-friendly. Download VeryPDF Raster to Vector Converter 10. Convert an image quickly to vector with A2 Vector Converter.
